ENSH Gold Forum

of the ENSH Global Network for
Tobacco Free Healthcare Services

ENSH
GLOBAL NETWORK
FOR TOBACCO FREE
HEALTH CARE SERVICES

ENSH-Global Network for Tobacco Free Healthcare Services

is an **independent, international, non-profit association** dedicated to strengthening the capacity of healthcare services in the field of tobacco control.

The ENSH-Global mission is to promote tobacco control globally by supporting healthcare services to implement tobacco management with the aim **to deliver safe quality care in relation to tobacco for every service user, every time and everywhere.**

ENSH-Global members participate **in sharing and learning processes** by implementing the ENSH-Global concept, standards and tools.

What is the Gold Forum?

It is a **global platform** that gives **recognition** to members and non-members working at the highest level of implementation of tobacco control within healthcare services.

Tobacco control that is in accordance with the **ENSH-Global Standards** for tobacco management in healthcare service.

It provides a learning and sharing forum for the exchange of good practice and access to experts on key aspects of **implementing tobacco free policies.**

Who can participate?

All healthcare services that have reached a high level of implementation of the **ENSH-Global 8 Standards** and have had their self-audit results validated and verified within a national or regional process.

Benefits of applying

Global sharing and learning on tobacco control/management in the healthcare environments

Global recognition for high level implementation of tobacco control/management in healthcare services

Access to experts and good practice in tobacco control/management and tobacco-free policies

Exchange platform for experiences, support and motivation for participation on a global level
